WINTRADO
TECHNOLOGIES

Fully Functional Customer Backend

Wintrado customer back office provides everything a modern forex trader needs

- A simple sign up & KYC flow
- Over 15 deposit & withdrawal methods
- Multi-wallet support and comprehensive reporting features
  (No Forex experience needed)

Affiliate Marketing System

- Share marketing material to your IBs and affiliates
- Track their performance
- Configure different single or multi-level commission schemes

Admin Portal

Our Admin Portal is easy to use but still provides all functionality you will expect from a modern Forex admin system.

Wintrado provides deep insight reports into risk & profitability. The settings allow you to customise everything from sign up and KYC flow to emails and margin settings.

It is complemented by a strong and well-documented APIs to integrate third-party systems such as external CRMs or Risk Management systems.

Special Features

Our all-in-one approach allows a seamless integration with other components such as the loyalty coins+stars programme or the trading competitions.
